

CIR/65/18-19

Date: 5th December 2018

Dear Parents,

Greetings from Amanora School!

Please note that as per the directives of the Panchayat Samitee Haveli (Health Department) and the Ministry of Health and Family Welfare, Government of India, it is mandatory for children of the age 15 years and below to be administered with the Measles and Rubella (MR) vaccine. The State Government plans this vaccination campaign to be driven by PMC (Health Department) in schools across Pune. Amanora School has been allotted **Monday, 10th December, 2018** for this campaign. Please refer to the attached information leaflet received from the government which is self-explanatory. Since the entire school strength falls in the ambit of the age criteria, we will not be having regular school working on 10th December, 2018. Parents are requested to bring their wards for the vaccination program being held in the school campus as per the timelines detailed below:

Sr. No.	Grades	Timings
1	Nursery to Prep II	9:30 am to 11:00 am
2	I to V	11:00 am to 2:30 pm
3	VI to X	2:30 pm to 3:30 pm

Kindly note that every possible arrangement will be made to accommodate siblings at any one of specified time slot.

Best regards,

For Amanora School

5/12/18

Meera Nair

Principal

NOTE: The vaccination drive is a mandate issued by the Government. In case you are unable to get your ward to the school for the same, kindly ensure to get him/her vaccinated from a PMC Hospital and submit a photocopy of the certificate to the school latest by Wednesday, 12th December, 2018.
