

CIR/110/17-18

Date: 09th February, 2018

Dear Parents

Greeting from Amanora!

In line with Pearsons' commitment to providing excellence in education, we have introduced a one-of-a-kind initiative this year. It is India's only platform that provides customized learning guidance for class 8 to 12 – Vidyartha.

Vidyartha has conducted this program for 380 students of classes 8th to 10th in Amanora School. The learning and career team conducted a series of interest, aptitude and personality assessments to assess skills and set learning goals. Vidyartha combines the findings from these assessments as well as your child's academic scores to create a personalized learning path for each student.

The program caters to the unique learning styles and preferences of each student. With a detailed, customized report based on their interests, aptitudes and academic scores, it comes up with:

1. Tailor-made suggestions on how to improve scores, with time-bound targets
2. A comparative analysis of each student, with respect to peers in the school, region and country
3. Recommendations on subjects, courses or colleges to choose post class 10

This provides actionable guidance that is highly relevant and useful to the student, parent and teacher. You can track your child's reports, relative standing and future recommendations at <http://app.vidyarthartha.com>

We are looking forward to having you participate in the upcoming one-on-one counselling session that will be taking place at Amanora School from the 12th of February. Together, we can make learning more interesting and build a great future for your child.

Best regards,
For Amanora School

Meera Nair 9/2/18
Principal

Please note the time allotted for your ward, _____ is from _____
to _____ on _____ of February 2018. Request you to kindly adhere to the
timings to help us serve you better.
